## Investment Approach

Bottom Up, Fundamental

## Investment Goal

The Hodges Fund is a core equity fund that invests in publicly traded companies ranging from large, blue chip companies to undiscovered small cap companies. It combines multiple investment themes and gives the manager the flexibility to invest where they see value regardless of company size.

## Performance (%) quarter ending 9/30/18

	Quarter	Year to date	Annualized				
			1 Year	3 Year	5 Year	10 Year	Since Incep.
Hodges Fund (gross)	-1.17	-1.75	10.24	16.60	11.78	11.58	11.29
Hodges Fund (net)	-1.53	-2.80	8.67	14.95	10.20	10.01	10.15

## Annual Year-End Returns (%)

	2017	2016	2015	2014	2013	2012
Hodges Fund (gross)	15.46	41.75	-10.19	8.83	59.50	17.78
Hodges Fund (net)	13.83	39.78	-11.48	7.30	57.24	16.07

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling (866) 811 0224, or visiting [www.hodgesfunds.com](http://www.hodgesfunds.com) for quarterly performance. The fund imposes a 1.00% redemption fee on retail class shares held less than 30 days and 60 days for institutional class shares. Performance data does not reflect the redemption fee. If reflected, total return would be reduced. Gross performance doesn't reflect fees or expenses; if reflected, returns would be reduced.

<sup>2</sup>Sector weights and Fund holdings are subject to change at any time and are not recommendations to buy or sell securities.

Market Cap is the value of a company that is traded on the stock market, calculated by multiplying the total number of shares by the present share price.

Price to Earnings (P/E) Ratio is calculated by dividing the price of a company's stock by its earnings per share.

Price/Book is calculated by dividing the price of a company's stock by its book value.

Price/Cash Flow is calculated by dividing the price of company's stock by its cash flow.

*The fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The prospectus contains this and other important information about the Hodges fund, and it may be obtained by calling (866) 811 0224, or visiting [www.hodgesfunds.com](http://www.hodgesfunds.com). Read it carefully before investing.*

Mutual fund investing involves risk. Principal loss is possible. The fund invests in smaller companies, which involves additional risks such as limited liquidity and greater volatility. The Fund invests in foreign securities which involves greater volatility and political, economic and currency risks and differences in accounting methods. The fund may also make short sales of securities, which involves the risk that losses may exceed the original amount invested. Options and future contracts have the risks of unlimited losses of the underlying holdings due to unanticipated market movements and failure to correctly predict the direction of securities prices, interest rates and currency exchange rates. These risks may be greater than risks associated with more traditional investments.

Past performance is no guarantee of future results.

Hodges Capital Management (HCM) is the adviser to the Hodges Funds, which are distributed by Quasar Distributors, LLC.
